Basic Vocabulary Builder on Computer

The **BASIC VOCABULARY BUILDER ON COMPUTER** is designed to:

- Improve basic vocabulary in the language you are learning;
- Review materials previously learned in home or class study;
- Assure mastery of basic words needed for everyday situations;
- Practice nouns, adjectives, and verbs on *three* levels of difficulty—each one requiring a more advanced use of language—for constant challenge as you progress.

The **BASIC VOCABULARY BUILDER ON COMPUTER** is the latest in language software, with more than 20 user-friendly units, each one graphically illustrated in full color, also compatible with monochrome screens. Each of the units covers one facet of everyday life and teaches 10 to 12 words. Lesson topics are:

Clothing
Accessories
Fruits and
Vegetables
Food-I
Food-II
Parts of the Body

The Family
The House
Furnishings
Household Items
Transportation
School
Buildings

Shops and
Stores
Occupations
Animals
Nature
Seasons and
Weather

Communication
Description
Colors
Health
Activities
Sports and
Recreation

Features unique to the **BASIC VOCABULARY BUILDER ON COMPUTER**:

- Random Presentation of Vocabulary: Words never appear in the same sequence
- Eye-Catching, Motivational, Lifelike Graphics
- Combines a Game Approach with Goals of Excellence: Time and point scoring
- Instructions in English and Positive Reinforcement in the Target Language
- Several chances to spell words properly, with helpful hints after each try
- Summary Evaluation of each unit listing incorrect responses for rapid review

This is a unique software program that will provide hours of enjoyment as you improve your basic vocabulary skills, whether you are studying at school or at home. Each set includes two diskettes and a complete, detailed guide to ensure your success. The **BASIC VOCABULARY BUILDER ON COMPUTER** gives you all the vocabulary you need to get started in the language of your choice!
